Sonnenberg, the ‹Sun Mountain›

Health resort Hotel-Sonnenberg, 1902

The hotel and restaurant tradition has existed over one hundred years on Mount Sonnenberg. Originally the hotel was built in the middle of the 19th century as a health resort. The very impressive building (picture above) offered an outstanding panoramic view over the city of Lucerne, the Lake Lucerne and the Alps. The world economic crisis between the First and Second World Wars brought this health resort to the edge of economic ruin. During the Second World War the business went bankrupt. In the following years the health resort Sonnenberg was used as accommodation for Swiss citizens forced to return from foreign countries. During the 50's the hotel was eventually torn down.

Today's Hotel-Restaurant Sonnenberg was built in 1963 – exactly 50 years ago! At its new location, it offers an even better panoramic view of Lucerne lowlands, lakes and Mount Pilatus. The restaurant with its modern, contemporary furnishings and large panoramic windows seats 120 people, while the sun terrace with its wonderful view seats over 70 people. The Hotel-Restaurant Sonnenberg has several banquet and seminar rooms, all equipped with the latest technical equipment. A children's playground and the 18-hole mini-golf course complete the offer for young and old.

In May 2007, exactly 16 years ago, the Hotel-Restaurant Sonnenberg was re-opened as a training centre. It is run by the association ‹The Buez›, which has helped more than 600 people to find jobs since its foundation.

We thank you for your visit and wish you a pleasant stay.
